Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-56 are pending in the instant application.

Priority

1. This application repeats a substantial portion of prior Application No. 09/672606, filed 9-28-00, and has claims 52-56 not presented in the prior application. Since this application names an inventor or inventors named in the prior application, it may constitute a continuation-in-part of the prior application. Should applicant desire to obtain the benefit of the filing date of the prior application, attention is directed to 35 U.S.C. 120 and 37 CFR 1.78.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to methods of treating behavior or psychological deficits using pluripotent neuroepithelial cells.

Group II, claim(s) 13-39, 43-48, drawn to pluripotent neuroepithelial cells which can be conditionally immortalized.

Art Unit: 1632

Group III, claim(s) 40 and 41, drawn to methods of testing using conditionally immortalized pluripotent neuroepithelial cells.

Group IV, claim 42, drawn to a mammal which has undergone a treatment.

Group V, claim(s) 49-56, drawn to a method of treating brain injury or trauma using conditionally immortalized pluripotent neuroepithelial cells.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: pluripotent neuroepithelial cells as in claim 13, which is the feature shared by all the claims, had been used for transplantation in the brain prior to applicants filing. The immortalized pluripotent neuroepithelial cells can be used to treat behavior or psychological deficit (Group I), to treat brain injury (Group V) or to test compounds *in vitro* (Group III). Thus, the cells have multiple uses and do not relate to a single inventive concept. The methods of treating (Groups I, V) do not require the method of testing compounds using the cells (Group III) and have different purposes. Since psychological deficits do not require brain injury, Groups I and V do not share an inventive concept. The mammal treated with a method of transplanting neuroepithelial cells does not share an inventive concept with any other group because it may be used as a model for studying disease or trauma *in vivo*.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 1632

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Wilson who can normally be reached on Monday through Friday from 9:00 am to 5:30 pm at (703) 305-0120.

Questions of formal matters can be directed to the patent analyst, Dianiece Jacobs, who can normally be reached on Monday through Friday from 9:00 am to 5:30 pm at (703) 305-3388.

Questions of a general nature relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-1235.

If attempts to reach the examiner, patent analyst or Group receptionist are unsuccessful, the examiner's supervisor, Deborah Reynolds, can be reached on (703) 305-4051.

The official fax number for this Group is (703) 308-4242.
